IN THE VALE

# Listed Buildings

in the Vale of Glamorgan

Planning (Listed Buildings and Conservation Areas) Act 1990

Section 1

# **Buildings of Special Architectural or Historic Interest**

**Listed Buildings  
in  
The Vale of Glamorgan**

## Introduction

A 'listed' building is a building or structure deemed of architectural or historic interest and included on a list compiled by Cadw, a part of the Welsh Assembly Government. Thereafter it is protected in law.

All listed buildings are of national significance and have been identified because of their importance in terms of architectural design, building type, and form, and/or because of the techniques or craftsmanship used in their construction and decoration. Some buildings have been included for reasons of historic interest. These include buildings which illustrate important aspects of the nation's social, economic, cultural or military history or which have historical associations with people or events important to Wales. Sometimes, groups of buildings share an architectural or historic unity, including for example, terraces, model villages or farm layouts, etc. and some listings reflect these important associations. Each building or structure is graded in terms of importance; either Grade I, II\* or II. Grade I and Grade II\* designations indicate that such buildings or structures are considered of an exceptional quality/importance in terms of their national significance.

<b>At present the Vale has:</b>	<b>33</b>	<b>entries (4%) which are Grade I</b>
	<b>71</b>	<b>entries (10%) which are Grade II* and</b>
	<b>634</b>	<b>entries (86%) which are Grade II</b>

In most cases if you wish to alter, extend or demolish a listed building, you will require 'Listed Building Consent' from the local planning authority. Buildings vary greatly in the extent to which they can accommodate change without loss of special interest; some may be sensitive to even slight alteration, and others less so. There may also be more sensitive or appropriate ways of undertaking works which would be more likely to gain consent. Free advice is available from the Council's Conservation and Design Team.

**For the sake of clarity, the 'listed building' should be interpreted to include:**

**The whole of the building itself (interior and exterior),  
Any object or structure fixed to the building, and  
Any objects or structures within the curtilage of the listed building which have existed since before July 1st 1948.**

It is a criminal offence under Section 7 of the Planning (Listed Buildings and Conservation Areas) Act 1990 [punishable by fine and ultimately by imprisonment] to execute or cause to be executed any works of demolition, alteration<sup>1</sup>, or extension of a listed building in any manner which would affect its character as a building of special architectural or historic interest, without first obtaining Listed Building Consent<sup>2</sup>.

<sup>1</sup> Alteration includes decoration in many cases and also minor works of partial demolition.

<sup>2</sup> For which application forms are available from the Council.

## **Content**

The following pages provide an inventory of the listed buildings in the Vale of Glamorgan. The list is arranged by community area (presented alphabetically), and by sub community. Each building or structure is also identified by a local Vale of Glamorgan Council reference number as well as the National Cadw record number and its grading. Listed buildings that are also 'scheduled monuments', or which are located within a designated scheduled area, are identified by the initials SM following their grade.

Should you require any further information about this inventory, or details of the buildings contained within it, please contact officers of the Council's Conservation & Design Team for assistance.

25.02.21	11359	Barn and attached ranges at Wallas Farm	II

#### Note:

'Brocastle' and its courtyard range are listed grade II and are often considered as being in Ewenny. *They are however in the local authority area of Bridgend.*

The scheduled areas in and around Ewenny Priory are complex and reference to the defined scheduled area map is recommended.

Buildings annotated (SM) have elements within the designated scheduled area.

Buildings annotated (SM#) have elevations which abut the designated scheduled area.
