

VALE of GLAMORGAN COUNCIL
WELL-BEING OBJECTIVES and
IMPROVEMENT PLAN Part I:

IMPROVEMENT OBJECTIVES 2018-19

MAY 2018

Strong
Communities
with a Bright
Future

Introduction

The Vale of Glamorgan Council has a duty to pursue service excellence, improvement and efficiency in delivering outcomes for Vale residents. We must do this within our organisation and by working with other councils, Welsh Government and other public sector bodies as well as the communities making up the Vale of Glamorgan.

At the start of each financial year, we have a duty under the Local Government (Wales) Measure 2009 to publish our Improvement Objectives. By producing this plan residents can find out what we intend to do over the coming year and what they can expect to see if we achieve our Improvement Objectives.

Whilst this plan focuses specifically on our key Improvement Objectives, we are still seeking to bring about improvement in other areas. Planned improvements in our day to day business are set out in our Service Plans which can be accessed from our website. In a period of severe budgetary constraint, it is important that the Council has clear direction and a sense of priority as we cannot do everything. We are committed to delivering our Improvement Objectives within the context of our adopted core values of:

Our Values

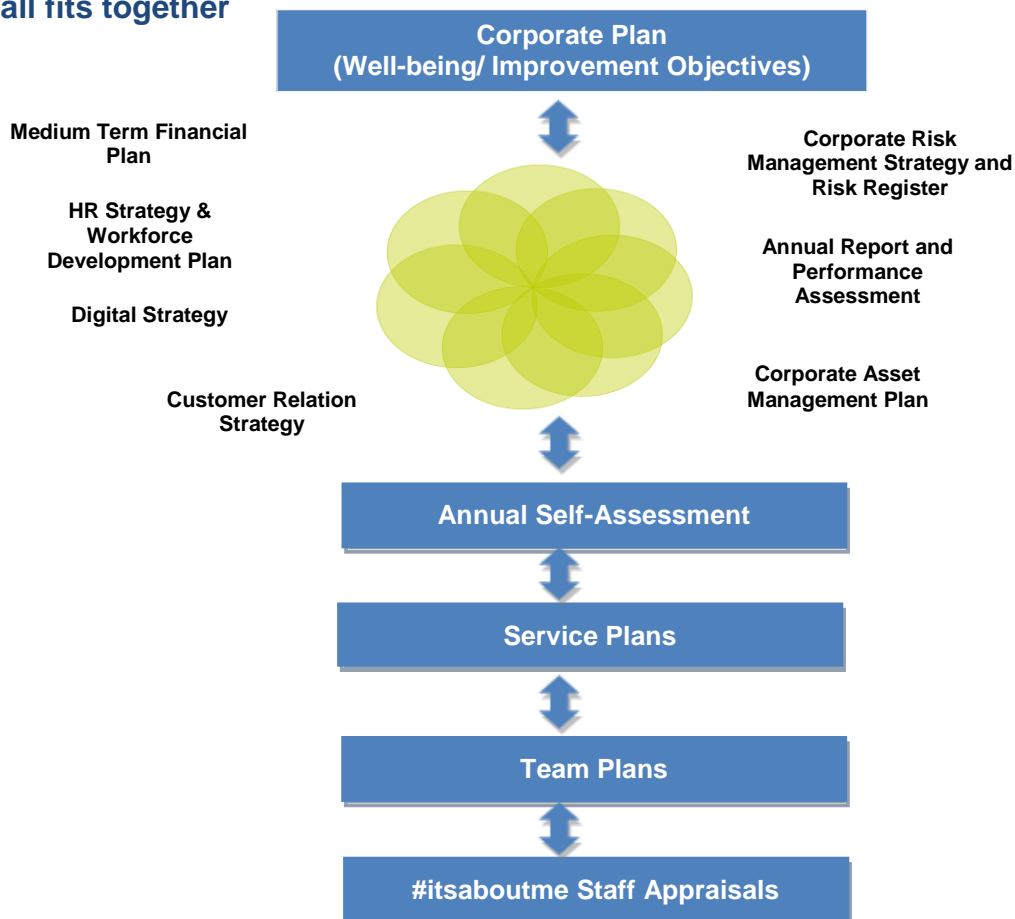

Ambitious - Forward thinking, embracing new ways of working and investing in our future.

Open - Open to different ideas and being accountable for the decisions we take.

Together - Working together as a team that engages with our customers and partners, respects diversity and is committed to quality services.

Proud - Proud of the Vale of Glamorgan: proud to serve our communities and to be part of the Vale of Glamorgan Council.

How it all fits together

The Vale of Glamorgan Public Services Board Well-being Plan 2018- 2023: Our Vale-Our Future

The Vale of Glamorgan Public Services Board (PSB) published its draft Well-being Plan Our Vale Our Future in October 2017. The five year plan sets out the first steps we will take in achieving our vision for the Vale in 2050 and provides the framework for our core collaborative activities over the 2018-2023 period. Our shared vision for the Vale of Glamorgan in 2050 is that:

‘Everyone will have a sense of belonging and be proud to be part of the Vale, recognising their contribution to the success of the region and Wales. Our impact on the environment, both local and global, will be understood, and public services, communities and businesses will work together to protect the environment and our natural resources for the benefit of current and future generations. The Vale will be an area of optimism and aspiration, where we work together to ensure that young people achieve their individual ambitions and are supported through the early years, childhood and teenage years. The positive attributes of our ageing population will be recognised and respected and the contribution of older people to the vibrancy and resilience of the Vale will be valued. Residents of all ages and backgrounds will participate in community life, helping to shape services and taking pride in the area they live in. Working together for the benefit of current and future generations will be the norm, and residents will have confidence in the services they receive and in their ability to effect change to improve the economic, environmental, social and cultural well-being of the area. Educational and health inequalities will be a feature of the past as we work together for a Vale where everyone has access to the services and support they need to live healthy, safe and fulfilling lives.’

The plan has been developed in accordance with our duties under the Well-being of Future Generations (Wales) Act 2015. This is a unique piece of legislation which requires us to ‘act in a manner which seeks to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs’. Informed by the Well-being Assessment, the PSB has assessed the state of economic, social, environmental and cultural well-being in the area, set objectives to maximise our contribution to the national goals and will be taking reasonable steps to meet those objectives.

The PSB is working together to achieve 4 Well-being Objectives:

To enable people to get involved, participate in their local communities and shape local services	To reduce poverty and tackle inequalities linked to deprivation
To give children the best start in life	To protect, enhance and value the environment

Progress in delivering against the Well-being Plan and the wider work undertaken through the PSB will be included in an Annual Progress Report in line with the requirements of the Well-being of Future Generations Act.

[The draft Vale of Glamorgan Well-being Plan 2018-23](#) is available on the Council’s website. The Plan is due to be ratified by all partners and delivery will commence from 2018.

The Corporate Plan 2016-2020

In March 2016, the Council published a revised Corporate Plan. This Plan represents the actions we will undertake above and beyond the everyday working of council services and articulates the specific priority actions for the Council in the coming years. In planning for the future we have considered the needs and views of partners and customers and our achievements to date in delivering the previous Corporate Plan. Our priorities have been set in the context of available resources and the significant challenges facing public services. However, the actions reflect our willingness to embrace innovative ideas and new ways of working. We have also considered how the Council will contribute to the Well-being Goals published as part of the Well-being of Future Generations (Wales) Act 2015 (WCFG).

We have identified four Well-being Outcomes which provide the framework for the plan together with eight Well-being Objectives. Underpinning these we have agreed an ambitious work programme for the next few years to achieve the well-being outcomes and meet our objectives. Each objective outlines the key commitments and activities that we will be working towards over the next few years which will contribute towards achieving the four well-being outcomes. Our Service Plans contain the detailed actions, resources, timescales and accountabilities for delivery. The plans also contain relevant national and local performance indicators that help us to measure and report our progress towards achieving the well-being outcomes and objectives. The [Corporate Plan 2016-20](#) can be viewed on the Council's website.

In adopting a more cross-cutting approach, expressed through Well-being Objectives that multiple service areas contribute towards, we will strengthen our ability to work as 'one council' in delivering our priority outcomes which are:

1. **An Inclusive and Safe Vale** - Citizens of the Vale of Glamorgan have a good quality of life and feel part of the local community.
2. **An Environmentally Responsible and Prosperous Vale** - The Vale of Glamorgan has a strong and sustainable economy and the local environment is safeguarded for present and future generations.
3. **An Aspirational and Culturally Vibrant Vale** - All Vale of Glamorgan citizens have opportunities to achieve their full potential.
4. **An active and Healthy Vale** - Residents of the Vale of Glamorgan lead healthy lives and vulnerable people are protected and supported.

Under the WCFG Act, the Council is required to review its Well-being Objectives annually to ensure they remain relevant. In order to strengthen and evidence our integrated approach both internally and with our partners, this year as part of the Council's Annual Self-Assessment, we have incorporated challenge sessions with Sponsoring Directors and key contributors for each of the Corporate Plan Well-being Outcomes and Objectives. These sessions have enabled us to consider the priorities emerging from the draft Annual Council Self-Assessment along with proposed activities to address these in order to help us determine whether our Well-being Outcomes and Objectives remain relevant and reflect the Well-being Objectives of the Vale of Glamorgan Public Services Board. The PSB published its draft Well-being Objectives in October 2017 pending agreement and publication by May 2018.

Having reviewed the progress made to date in relation to the Corporate Plan Well-being Outcomes and corresponding Objectives, we are assured that the priorities we have set continue to be relevant priorities going forward into 2018/19. This has been reinforced further by:

- positive responses from the challenge sessions held in January 2018 with Sponsoring Directors and responsible officers on proposed emerging priorities for improvement for 2018/19 as identified through this Self-Assessment;
- findings from the comprehensive annual self-assessment of Council services for the period April 2016 to December 2017;
- the Public Opinion Survey carried out between December 2016 and January 2017 which showed overall satisfaction with Council services has improved to 92% compared with 84% in 2014/15.

The implementation of the Corporate Plan is monitored quarterly through a number of forums, including the Corporate Management Team, Scrutiny Committees and the Cabinet, in line with the Council's performance management arrangements. These arrangements are continuously reviewed, taking account of the WBFG Act indicators and key milestones in order to ensure they support the new ways of working we are adopting.

Our four Well-being Outcomes are carried forward into Service Plans to ensure consistency and focus. The objectives under each Well-being Outcome have been included in relevant Service Plans and provide the basis for key actions to ensure these objectives are delivered. A Sponsoring Director has been allocated responsibility for each Well-being Outcome and will take the lead in ensuring that progress is made in achieving our intended outcomes, bringing together the relevant colleagues from across the Council and external partners as appropriate.

Improvement Objectives 2018-2019

Whilst we are constantly striving to improve all our services, it is important for us to identify a number of areas where we want to focus our attention in order to achieve significant improvements more quickly. These areas are our Improvement Objectives.

In previous years, we have identified a small number of priority areas from the Corporate Plan where significant improvement is required. By moving towards a more integrated planning model, our improvement priorities are now the same priorities that are outlined within our Corporate Plan and therefore no longer sit in isolation to this Plan. This has enabled us to consider multifaceted issues in a cross-cutting and holistic way. Our focus has been on setting our Well-being Outcomes and Objectives outlined in the Corporate Plan, so that we can maximise our contribution to the Well-being Goals of the Wellbeing of Future Generations (Wales) Act 2015 whilst dovetailing this with our corporate planning processes. This demonstrates not only our contribution to the Well-being Goals but also represents the breadth of activities we undertake as a Council and by integrating the Act's 5 ways of working within our planning framework.

Significant work has been undertaken to ensure that the Corporate Plan Well-being Objectives and priority actions reflect the key priorities for the Vale of Glamorgan, thus ensuring the Council is focusing on the areas in need of the most improvement and those of greatest impact to our residents' well-being. In addition, having reviewed the progress made to date in relation to the Corporate Plan Well-being Outcomes and corresponding

Objectives alongside the Well-being Objectives of the Vale of Glamorgan Public Services Board, we are assured that the priorities we have set reflect the Objectives of the PSB and continue to be relevant priorities for the Council going forward into 2018/19.

In line with this approach, we have adopted the Corporate Plan Well-being Objectives and its associated priorities for 2018/19 as the Council's Improvement Objectives for 2018/19.

Listed below, are the specific areas we have identified as Improvement Objectives for 2018/19, as outlined in the Corporate Plan, for the purposes of the Local Government (Wales) Measure 2009.

- 1. Reducing poverty and social exclusion.**
- 2. Providing decent homes and safe communities.**
- 3. Promoting regeneration, economic growth and employment**
- 4. Promoting sustainable development and protecting our environment.**
- 5. Raising overall standards of achievement.**
- 6. Valuing culture and diversity.**
- 7. Encouraging and promoting active and healthy lifestyles.**
- 8. Safeguarding those who are vulnerable and promoting independent living.**
- 9. Delivering the Council's transformational change programme, Reshaping Services, to enable it to meet the future needs of citizens within the context of unprecedented financial challenges.**

The nine areas are described in more detail on pages 8-35. For each Well-being Objective we have outlined our rationale for selection, the relevant Corporate Plan priorities contributing to the Objective; the actions we will take during 2018/19 in order to progress those priorities and how we will measure our progress.

To support the delivery and scrutiny of our Corporate Plan and Improvement Objectives, we have taken the opportunity to review our approach to performance management. Our scrutiny committee arrangements are now aligned to the Corporate Plan Well-being Outcomes and associated Objectives and quarterly performance reporting reflects the new arrangements and focuses on outcomes rather than service specific actions. This approach is enabling us to better demonstrate achievement of the Corporate Plan Well-being Outcomes and Improvement Objectives.

Publishing our Improvement Objectives

Our Improvement Objectives for 2018/19 are available on Council's website at www.valeofglamorgan.gov.uk. Members of the public will also be able to access this information at the Council's offices and libraries and can comment on our Improvement Objectives by emailing us at: improvements@valeofglamorgan.gov.uk

Our [Service Plans](#) for 2018/19 provide further details on the relevant actions and measures, resources, timescales and accountabilities for delivering our Improvement Objectives and are available on our [website](#).

Reviewing and reporting on our progress

Our Improvement Objectives are a legal requirement under the Local Government (Wales) Measure 2009. It is important to review our progress and report to elected members and the public on improvements which have been achieved and where we need to do better. Progress in our improvement areas will be scrutinised quarterly by the Council's Corporate Management Team, Cabinet and Scrutiny Committees, using a wide range of evidence as well as performance reports. Our quarterly performance reports published in September (quarter 1); December (quarter 2); March (quarter 3); and July (quarter 4/ End of year) can be viewed on the Council's website.

In addition, to publishing our Improvement Objectives at the start of the financial year, we also publish an annual report at the end of October which reviews our performance over the previous year, and details whether we have achieved the intended outcomes for Vale citizens. This is the Improvement Plan Part 2. We will report our performance against these (2018-19) Improvement/ Well-being Objectives in October 2019.

Rationale for this objective

Evidence highlights that across the Vale of Glamorgan there are pockets of deprivation and that quality of life and opportunities can vary significantly. In delivering this objective we will be working to ensure that residents and visitors feel safe and part of the local community. Tackling poverty has been a priority for the Local Service Board and it is envisaged that the new Public Services Board will continue to prioritise this area of work. The Council will be undertaking a range of activities to support this work. This will include work as part of the Communities First programme in Barry and initiatives to tackle rural poverty and financial and digital exclusion.

Our Corporate Plan priorities

- Provide information and support to residents affected by Welfare Reform and raise awareness of staff and partners about the impact of the changes. (IS003)

- Continue to work with partners to deliver the objectives stated within Financial Inclusion Strategy, including the establishment of a multi landlords group to mitigate the negative effects of Welfare Reform on all social tenants living in the Vale. (HS/A051 IS002)
- Identify a suitable estate based regeneration project in collaboration with the local community and key stake holders. (HS/A052 IS002)
- Work with partners to increase the range of projects and initiatives which support employment, healthy living, financial and digital inclusion and deliver the objectives within the Community Investment Strategy. (HS/A027 IS002)
- Continue to provide information and support to residents affected by Welfare Reform / Universal Credit and raise awareness of staff and partners about the impact of the changes. (HS/A053 IS003)

² The target for 2018/19 reflects the fact that performance in relation to this PI is highly volatile given that a different cohort is measured every year and sample sizes will vary significantly. Also, findings of the self-assessment undertaken by clients are very much influenced by a number of factors. For example, not everyone receiving housing related support alone will be able to maintain their independence as many conditions e.g. a learning disability are ongoing and the support will be needed for the rest of a client's life to enable them to live in the community, very often along with many other interventions e.g. personal care.

³ The roll out of Universal Credit is going to pose challenges in respect of the potential for the Money Advice service to sustain tenancies and the target for 2018/19 has been set to reflect this.

How will we measure progress?

Indicator	2016/17 Performance	2017/18 Performance	2016/17 Welsh Average	2018/19 Target
CPM/012: Percentage of all households where a positive prevention action succeeded in preventing homelessness.	68.63%	72.47%		70%
CPM/026: The percentage of people who have received a Disabled Facilities Grant who feel the assistance has made them safer and more independent in their own home.	99.34%	100%		97% ⁴
CPM/124: Percentage of domestic abuse victims that report that they feel safer as a result of target hardening.	100%	100%		100%
CPM/027 (PAM/015): Average number of calendar days taken to deliver a Disabled Facilities Grant.	166.51 days	188.15 days	224 days	190 days ⁵

⁴ 97% in relation to client satisfaction is a highly challenging target. Given the numbers of survey respondents in previous years, this equates to approximately 3 applicants being dissatisfied and is a realistic target.

⁵ The change in definition by Welsh Government this year is already having an impact on delivery times as it has altered the point at which we start the clock. The proposed target of 190 days is within the Wales top quartile for 2016/17. It is also anticipated that the top quartile is likely to increase nationally in line with this new guidance.

How will we measure progress?				
Indicator	2016/17 Performance	2017/18 Performance	2016/17 Welsh Average	2018/19 Target
CPM/011: Percentage of tenants satisfied with WHQS works.	73.93%	67.31%		85%
CPM/010: Average number of working days to let an empty property (standard condition).	28 days	18.96 days		22 days
CPM/064 (PAM/013): Percentage of empty private properties brought back into use.	13.79% Definition amended for 2017/18	7.4% ⁶	8.79%	No target
CPM/ 234 (PAM/038): Percentage of homes that meet the Welsh Housing Quality Standard (WHQS)	New PI for 2018/19	New PI for 2018/19		100%
CPM/235 (PAM/039): Percentage of rent lost due to properties being empty.	1.36%	1.14%		1.50% ⁷

⁶ No target has been set for 2018/19 as a definition change was made by Welsh Government for this measure in 2017/18. We are currently establishing baseline performance for 2017/18.

⁷ The Housing Business Plan assumes a performance of 1.67% and the target for 2018/19 reflects void process improvements in 2017/18.

Well-being Outcome 2

The Vale of Glamorgan has a strong and sustainable economy and the local environment is safeguarded for present and future generations.

Improvement Objective 3

Promoting regeneration, economic growth and employment

Rationale for this objective

We have a strong track record of delivering successful regeneration projects in the Vale of Glamorgan. Therefore the purpose of this objective is to continue to build on this track record by working with partners to further expand our programme of regeneration across the Vale. Our key objectives are to promote regeneration, economic growth and employment which will support us in contributing to the wellbeing goals of the Well-being of Future Generations (Wales) Act 2015. It will require us to work with a range of partners to identify what skills are needed and how we can maximise opportunities for job creation. It will also include our work across the region as part of the Cardiff Capital Region.

How will we measure progress?

Indicator	2016/17 Performance	2017/18 Performance	2016/17 Welsh Average	2018/19 Target
CPM/078: Average vacancy rate in the Vale's main town centres.	8.2	8.83	12.5	8.5 ⁸
CPM/087: Total number of visitors to the Vale of Glamorgan for Tourism purposes (as measured by STEAM survey).	3,962,000	3,970,000		3,900,000 ⁹
CPM/081: Number of communities/ groups supported	78	117		70 ¹⁰

⁸ Vacancy rates are volatile and influenced by macro-economic factors including changes in the economy and the retail sector in general. The proposed target of 8.5 is well below the UK average of 9.4 and the Welsh average of 12.5.

⁹ Whilst the proposed target is below the actual performance of 3,970,000 reported for 2017/18, the target for 2018/19 is considered realistic when based on long term fluctuating trends that have seen both decrease and increase in tourism.

How will we measure progress?				
Indicator	2016/17 Performance	2017/18 Performance	2016/17 Welsh Average	2018/19 Target
to lead on the delivery of community projects.				
CPM/079: Number of facilitated visits to country parks and heritage coast.	361	327		330 ¹¹
CPM/145: Number of visitors to Barry Island weekender events.	28,000	48,000		50,000

¹⁰ The lower target for 2018/19 reflects the nature of scheme being measured - the first year of the project had the highest performance as all groups have been contacted and supported. Some of the community groups supported have already taken up the 3 year funding and will not be eligible for additional support whilst other others may come back if they need support going forward and can only be counted at this point. In many cases, we will be working with the same groups, a number of which will need no further support.

¹¹ The target reflects the cyclical nature of the national curriculum set by Welsh Government and current performance.

¹⁴ It will be challenging to maintain the high standards already achieved in the Vale due to decreasing resources in this area, and this has been reflected in the target for 2018/19.

¹⁵ 80% or above represents a performance level of 'Good' in the recently published Welsh Government All Wales Annual Performance Report. The target is realistic whilst being mindful of dealing with a consistently high level of applications and increased administrative burden.

¹⁶ The target of 90% is realistic whilst being mindful of dealing with a consistently high level of applications and increased administrative burden.

¹⁷ The target has been set in line with the requirements of the Council's Carbon Management Plan.

¹⁸ A 90% satisfaction rating remains a highly challenging target given that many of the facilities on offer at Barry Island are out of Council control.

Rationale for this objective

We recognise the importance of prevention and early intervention to improve and maintain well-being and to help tackle health inequalities, which is also a key element underpinning the five ways of working within the Well-being of Future Generations (Wales) Act 2015. We have also recognised the importance of early years services to give people the best start in life which is central to ensuring we can contribute to the Well-being Goals of a 'More Equal Wales' and 'Healthier Wales'. Similarly we understand that as people get older they have different needs. We are working with partners to improve health and social care services to ensure that where possible our services are more joined up and put the needs of the customer first. This continues the work already being undertaken with partners across Cardiff and the Vale and will make a significant difference to the well-being of some of our most vulnerable residents, their families and carers.

Our Corporate Plan priorities

- Implement new ways of working in light of the Social Services Well-being (Wales) Act with a particular focus on the priority work streams of: provision of information, advice and assistance services, eligibility/assessment of need, planning and promotion of preventative services, workforce and performance measures. (AH7)
- Improve access to health and social care services by improving the speed, simplicity and choice of how to access services. (AH8)
- Work with partners to progress the integration of adult social care and community health services. (AH9)
- Explore options for single integrated ICT systems and integrated budgets across the Cardiff and Vale region for social care. (AH10)
- Develop and implement a corporate policy on safeguarding to provide a clear strategic direction and lines of accountability across the Council. (AH11)
- Minimise delays in transfers of care and discharge from hospital through improved co-

Our Corporate Plan priorities

- ordination of services and the delivery of the Accommodations Solutions Service. (AH12)
- Review accommodation with care options for older people and develop our commissioning strategy for future years. (AH13)
- Work with partners through the Cardiff and Vale Regional Safeguarding Children's Board to develop a child sexual exploitation strategy. (AH14)
- Undertake a programme of targeted inspections at premises undertaking commercial activities that affect vulnerable people (for example care homes and food establishments in schools). (AH16)

During 2018/19 we will focus on the following actions to progress our Corporate Plan priorities

How will we measure progress?				
Indicator	2016/17 Performance	2017/18 Performance	2016/17 Welsh Average	2018/19 Target
CPM/057 (PAM/025): The Rate of people kept in hospital while waiting for social care per 1,000 population aged 75+.	2.59	2.85	2.8	2.5 ²²
CPM/026: Percentage of people who have received a Disabled Facilities Grant that feel that the assistance has made them safer and more independent in their own home.	99.34%	100%		97% ²³
CPM/058: The percentage of adults who completed a period of reablement and have a reduced package of care and support 6 months later.	6.67%	Data not yet available ²⁴		10%
CPM/059: The percentage of adults who completed a period of reablement and have no package of care and support 6 months later.	73.33%	Data not yet available		75%
CPM/107: Percentage of Supporting People service users who confirm that the support that they have received has assisted them to maintain their independence.	96.15%	82.93%		75% ²⁵
CPM/209: Number of new Telecare users	363	330		375

²² This target remains challenging for the hospital discharge service given the increasing and aging population in the Vale. A target of 2.50 would equate to 29 delayed transfers of care.

²³ 97% in relation to client satisfaction is a highly challenging target. Given the numbers of survey respondents in previous years, this equates to approximately 3 applicants being dissatisfied and is a realistic target.

²⁴ Social Services data is currently being migrated into the Welsh Community Care Information System (WCCIS) consequently data is unavailable for Q4.

²⁵ The target for 2018/19 reflects the fact that performance in relation to this PI is highly volatile given that a different cohort is measured every year and sample sizes will vary significantly. Also, findings of the self-assessment undertaken by clients are very much influenced by a number of factors. For example, not everyone receiving housing related support alone will be able to maintain their independence as many conditions e.g. a learning disability are ongoing and the support will be needed for the rest of a client's life to enable them to live in the community, very often along with many other interventions e.g. personal care.
