GWASANAETHAU ARLOESOL Y DYFODOL
INNOVATIVE FUTURE SERVICES

We're looking for future leaders that want to make public services better.

Join a dynamic cohort of doers from across the Cardiff Capital Region to learn, build and network for innovative future services.

Infuse is a safe space where learning, experimenting, and testing come together to design future public services; whether that's addressing how services are delivered to meet the changing needs of the region, or tackling the accelerating decarbonisation agenda to meet Wales' commitment of a carbon neutral public sector by 2030.

What does the programme involve?

Over six months, officers will complete three months of delivered sessions from sector leaders at the forefront of our biggest challenges. Experts in their field will share examples of good practice from all over the globe and explore how we can adapt or adopt these ideas to meet our needs.

This is followed by three months of experimenting and testing ideas in our day jobs, the summer project, with help and support throughout.

At the end of the programme, you'll join an exciting network of Infuse alumni who will be continuing to change how public services are delivered in our region.

Example Infuse week:

Tuesday (AM)

Session 1 – How do I bring together the right data to solve my problem? (1 hour)

Session 2 - Data analysis approaches (1 hour)

Thursday (AM)

Session 3 - Theme support: Accelerating Decarbonisation (90 mins)

Session 4 - Theme support: Supportive Communities (90 mins)

How does it work with my day job?

Senior leaders in every local authority have committed to supporting Infuse. Officers will be supported to have time in their week to take full advantage of the programme and to have space to participate fully.

What do previous participants say?

“... it is a great opportunity to expand your network and immerse yourself in something quite different.”

“... you will learn some really good stuff that reminds you why you work in public services.”

“rewarding and very much worth joining if you want to both develop yourself and your area of work.”

How do I find out more?

We encourage you to get in touch with Programme Engagement Manager, Christina Martin who can explain more about the programme and timings.
