

Meeting of:	Cabinet
Date of Meeting:	Monday, 16 November 2020
Relevant Scrutiny Committee:	Corporate Performance and Resources
Report Title:	Revenue Monitoring for the Period 1st April to 30th September 2020 and Revised Budget for 2020/21
Purpose of Report:	To gain Cabinet’s approval for the amended revenue budget for 2020/21 and to advise Cabinet of the progress relating to revenue expenditure for the period 1st April to 30th September 2020
Report Owner:	Report of the Executive Leader and Cabinet Member for Performance and Resources
Responsible Officer:	Carys Lord Head of Finance/ Section 151 officer
Elected Member and Officer Consultation:	Each Scrutiny Committee will receive a monitoring report on their respective areas. This report does not require Ward Member consultation
Policy Framework:	This report is for executive decision by the Cabinet
<p>Executive Summary:</p> <ul style="list-style-type: none"> • The revenue position for 2020/21 is challenging with additional pressure for the Council both operationally and financially as a result of the COVID-19 pandemic. This has impacted both as a result of incurring additional expenditure but also from a loss of income. Funding has been provided by Welsh Government to cover some of the issues. • An efficiency target of £247k has been set for the year and while it is anticipated that this will be achieved, some issues remain relating to unachieved savings targets from previous years. • The 2020/21 budget has been amended for internal transfers and technical adjustments. The overall total budget for the authority has not changed from £240.438m • Adverse variances are being projected for a number of services this year and the use of reserves will be required to resolve these issues in the short term issue. 	

Recommendations

1. That the position with regard to the Authority's 2020/21 Revenue Budget be noted.
2. The amended revenue budget for 2020/21 as set out in Appendix 1 be approved.

Reasons for Recommendations

1. To inform Cabinet of the projected revenue outturn for 2020/21.
2. To incorporate changes to the 2020/21 budget.

1. Background

- 1.1 Council on 26th February 2020 approved the Revenue Budget for 2020/21 (minute no c212) and the Housing Revenue Account budget for 2020/21 (minute number c213). There is an approved drawdown from the Council Fund during 2020/21 of £1m.

2. Key Issues for Consideration

Impact of COVID-19

- 2.1 The revenue position for 2020/21 is challenging with additional pressure for the Council both operationally and financially as a result of the COVID-19 pandemic. This has impacted both as a result of incurring additional expenditure but also from a loss of income.
- 2.2 From March 2020, Welsh Government (WG) has provided financial support to cover additional expenditure incurred via the Local Authority Emergency Hardship Grant. For the period March to Sept 2020 the Council will receive over £6m. The table below shows the value of the grant claimed to date, the value of items that WG have advised are ineligible for the grant, the value of items that are awaiting confirmation from WG and also actual grant received. Funding in some form will continue during this financial year, however, the basis on which funding will be released may change over the months as circumstances change.

Month	Grant Claimed £000	Items Disallowed £000	50% Paid £000	Grant Due £000	On Hold £000	Grant Received to Date £000
March	108	0	-27	81	0	81
April	1,349	-110	0	1,239	0	1,239
May	2,003	-491	-268	1,244	0	1,244
June	1,496	-20	-62	1,414	0	1,414
July	1,271	0	0	1,271	0	1,271

Aug	427	-4	0	423	0	423
Sept	542	0	0	542	-17	525
Total	7,196	-625	-357	6,214	-17	6,197

2.3 The main area of expenditure which has been disallowed relates to the additional 10% payment made to frontline staff in Social Service, both internally and to external providers and in Neighbourhood Services to acknowledge the risk they have been undertaking during the pandemic. This expenditure was disallowed by WG as it was a local decision and WG are providing funding for areas which are consistent across all authorities. A claim for the 10% payment to staff was therefore not included in the June, July or August claim to WG and is not included in the table above. They have also rejected any claims that relate to the Housing Revenue Account, again on the basis of consistency, as not all authorities have housing stock. WG has provided 50% funding for IT related expenditure up to the end of June and the figures in the above table relate to both revenue and capital costs. From 1st July, no further claims can be made for IT related expenditure and 100% of the costs have to be met by the Council.

2.4 In addition, WG are also providing grant support to cover the loss of income and £958k has been received for the first quarter of the year. A claim for lost income relating to quarter 2 is to be submitted by mid-November. WG have now provided further clarity as to what income will not be eligible. They consider that the reduction of income relating to Planning Fees, Building Control Fees, Land Charges, Registrars and Licensing are delays in income rather than a loss therefore grant funding will not be provided and the situation will be reviewed during February 2021. However 50% of the Licensing and Registrars lost income claim was paid for quarter 1. The income losses going forward may improve depending on whether lockdown eases, however, there may still be restrictions on some services operating and thus generation income.

2.5 The Council has also received other specific grant funding from WG to cover additional costs relating to COVID-19 as shown in the table below.

Grant	£000
Business Support Grant	27,150
Business Support Grant (2nd Tranche - October 2020)	6,735
Retail Leisure Hospitality Rates Relief	8,100
Start Up Business Grant	207
Freelancer Grant	319
Schools - Cleaning Products	32
Schools - Accelerated Learning Programme	717
	43,260

2.6 On 29th October 2020 the Deputy Minister for Health and Social Services announced funding of £12.53m to ensure that children, young people and families in Wales receive the support they need during these very challenging

and extraordinary times. Further detail as to the level of the allocation for the Council is awaited.

- 2.7** The impact of the COVID-19 pandemic will be discussed in further detail throughout this report.

Revised Budget 2020/21

- 2.8** At this time of the year the original budget is usually reviewed for any required adjustments and an amended budget is calculated. Appendix 1 to this report sets out the amended budget for 2020/21, together with the necessary adjustments to be made. These adjustments reflect charges for the use of capital assets, changes to inter-service recharges and transfers and pensions adjustments to comply with accounting standards. They have no overall effect on the net budget of the Council and are accounting adjustments largely outside the control of services.

Revenue Financial Position

- 2.9** This year it is difficult to project the potential outturn position for the Council at year end, particularly with the prospect of varying lockdown restrictions between now and the end of the financial year. However, the table below details the amended budget and shows the position by service area based on current projections which will change as the year develops and further clarification on grant funding is received from WG. The unplanned use of reserves will be necessary in the short term and is currently projected to be around £3.6m. This is in addition to the already approved drawdown from the Council Fund during 2020/21 of £1m.

	2020/21	2020/21	2020/21	Variance
Directorate/Service	Original Budget	Amended Budget	Projected	(+)Favourable (-) Adverse

Learning and Skills

2.10 The forecast for Learning and Skills is an overspend of £250k. The Education Pressures reserve has a current balance of £452k and therefore if the Education Service is unable to mitigate the overspent position by year end, funding will be transferred from the reserve.

2.11 Schools - The delegated budget relating to schools is expected to balance as any under/over spend is carried forward by schools. As at 1st April 2020 schools reserve balance stood at £839k.

Additional expenditure has been incurred in schools in respect of COVID-19, however, most of this expenditure to date will be grant funded. Hubs have been set up in schools over the past months to provide childcare for key workers during the lockdown period. Funding for this provision has been received from WG through the Hardship grant. Where possible, grant funding has been claimed from WG to cover additional expenditure incurred by Schools since their reopening in September.

2.12 Strategy, Culture, Community Learning & Resources - An adverse variance of £289k is projected at year end after a transfer of £125k from reserves.

School Transport is currently projecting an overspend of £392k. Local Education Authorities have a statutory duty to provide free school transport for pupils of statutory school age who reside beyond walking distance to the nearest appropriate school, in addition to a statutory duty to provide transport for pupils with additional learning needs who require access to specialist provision. The Council also provides discretionary support towards pupils in further education above the age of 16. The Learning and Skills Directorate is responsible for meeting the cost of any adverse variance against this budget even though the service is procured through the Environment and Housing Directorate. The following overspends are currently projected: Primary £17k, Secondary £122k, Further Education £40k and Additional Learning Needs (ALN) £213k.

Contract prices rose following the tendering of all school transport services in September 2019. From September 2020, additional mainstream routes have been required due to safety concerns and no transport provided in certain areas which has resulted in an increase in costs. Additional services are running as pupils are unable to attend their catchment school. There has been another significant increase in cost following the decision of one of the operators to hand back all the services that they were carrying out and there has been a need to set up additional ALN routes for September 2020. Transport costs to Ysgol Y Deri have increased while others have remained consistent with transport to some schools ceasing, such as St Illtyds Primary and Ysgol Bryn Derw and new transport requirements to schools such as Riverbank and Cowbridge Comprehensive. Some pupils with ALN have extremely complex needs and can require, at short notice, a change of transport, either because they have issues with other pupils, they have a change in their behaviour or a minor issue on transport means they can no longer travel on a certain route. There have only been an additional six pupils added to Ysgol Y Deri services since September 2019 but the addresses of the pupils are as far reaching as Llantwit and Ogmere, which in itself increases costs.

When schools were closed during the period April to June, the Council continued to pay school transport providers 75% of their contract to ensure that the service would be available when schools reopened, however, WG has offset this saving by reducing the funding they have provided for lost income.

Libraries are projecting an underspend of £39k. There are staffing underspends of £69k as a result of vacancies, however, £18k of the underspend will be used to offset the cost of implementing Openplus at Cowbridge and Llantwit Libraries and the provision of card payment machines in Libraries and software purchases of £12k.

Adult Community Learning –The service is currently projecting that it will outturn with an underspend of £64k. Vale Courses are projecting a £44k deficit due to

COVID-19. Welsh Government have provided funding for loss of income however from September some classes will take place on ZOOM with reduced class sizes when centres open and possibly only 45% of provision will take place. The Get Back On Track programme is currently projecting a favourable variance of £63k due to staffing underspends and additional Cardiff and Vale College (CAVC) funding for skills@work. The CAVC Franchise is projecting a £14k underspend from the staffing budget. The CAVC Skills Development programme will also underspend by £31k.

Schools Non Delegated expenditure – This budget is projected to outturn on target after a transfer of £125k from the School Rationalisation Reserve to fund transitional costs in relation to the 21st Century Schools programme.

- 2.13** Directors Office - It is anticipated that this area will outturn on target.
- 2.14** Additional Learning Needs & Wellbeing - This service continues to face significant pressures due to the increasing needs of pupils within the Vale and an adverse variance of £29k is projected. Children's Placements is currently projected to breakeven based on current information, however this will be reviewed based on any changes in placements. There is currently an adverse variance of £33k relating to Recoupment income and the Prevention & Partnership budget currently has a favourable variance of £4k.
- 2.15** Standards and Provision - A net favourable variance of £68k is anticipated across the Standards and Provision Service due to savings on employee costs in the Youth Engagement and Progression service.

Social Services

- 2.16** It is anticipated that Social Services will overspend by £1.5m this year.

Children and Young People Services - There is continuing pressure on the children's placements budget given the complexities of the children currently being supported and the high cost placements some of these children require to meet their needs. This is further impacted by the COVID-19 pandemic and the significantly higher demand for placements. Work continues to ensure that children are placed in the most appropriate and cost effective placements. There is also pressure due to legal costs being incurred as a result of complex court cases that require counsel's involvement. In addition this year there have been greater costs incurred in relation to children being placed for adoption outside the Vale Valleys and Cardiff Adoption partnership area. This does not reflect more children being placed in agency placements, rather that the staggered payments made for these placements have fallen more significantly in this financial year. £500k of the 2020/21 WG Social Care Workforce and Sustainability Pressures Grant has been allocated to this service which has been received for a second year and with additional funding provided by the Council as part of the budget setting process for 2020/21, the overall Children and Young

People Services budget is currently projected to breakeven. The outturn position could fluctuate as the year progresses if the number of children looked after and/or complexity of needs change, particularly with the potential high cost of each placement.

Adult Services - The service is now projecting an overspend at year end of around £1.5m. This is after Social Care Workforce and Sustainability Pressures Grant funding has been received from WG for a second year and this year £1.1m of this grant has been allocated to Adults Services. Of the overspend, £1m is due to the pressures on the Community Care Packages budget which is extremely volatile and therefore difficult to predict. Work is ongoing to review this position, particularly in light of the current circumstances. As part of the Council's commitment to acknowledge and support the work Council staff are undertaking in the care sector during the COVID-19 pandemic, a temporary pay increase of 10% has been provided. There has also been a similar payment totalling around £500k to staff working for external domiciliary providers and residential and nursing home providers. WG is not prepared to fund this additional payment to Council or external provider's staff via the Hardship grant as it is a local decision and therefore the costs have to be financed by the Council. Other support provided to external care providers such as the provision of PPE and additional staffing hours due to sickness/shielding etc will be funded by WG. Payments made to care home providers for void beds and for void beds in the Council's own care homes for the 3 months ending 30th June 2020 has been claimed from WG and will continue to be claimed in quarter 2. The service has needed to purchase large quantities of PPE over the past months and funding for these costs has been received from the WG Hardship grant. It is still early in the financial year and these figures could fluctuate however any overspend at year end will be funded from the Social Services Legislative Changes reserve.

- 2.17** Youth Offending Service - It is early in the financial year and currently it is anticipated that this service will breakeven at year end.

Environment and Housing

- 2.18** Neighbourhood Services & Transport is currently projected to have an adverse variance of £750k against the 2020/21 budget. Funding for budget pressures of £1.25m has been provided as part of the 2020/21 budget setting process, however, there remains considerable pressure on the budget.

Waste Collection Service - The service is anticipating an adverse variance of around £1m by year end. There still remains continued pressure on employee and transport budgets due to downtime involved in travelling to Cardiff to dispose of waste. However this will reduce once the waste transfer station is operational which is due to take place during 2021/22. Staffing numbers have been increased to enable the maintenance of the service through the COVID-19 pandemic and to be able to observe social distancing. This increased cost is, however, being claimed against the WG Hardship grant. A temporary additional

10% uplift in salary has also been provided to frontline staff in this area to acknowledge the difficulties they face and as previously stated this is not being funded by WG. This uplift has been approved for the period from April to the end of August 2020 and will cost the service around £175k. There was also a decrease in the Waste Grant from WG for 2020/21 which funds part of the recycling collection service. Preparations are still ongoing to enable the full rollout of a kerbside sort method of recycling. The next phase of the recycling rollout commenced in Barry during October 2020. This will ensure that the majority of recycling is delivered to UK markets rather than being sent abroad and will further reduce the costs currently being spent on treating recycling as the Council will get an income for the majority of recycling it collects rather than paying for the treatment of our co-mingled recycling. Currently, there remains pressure on the budget due to the high price being paid to treat co-mingled recycling. The price has increased steadily over the last couple of years since China banned elements of recycling such as plastic into the country. This has been compounded by a high % of dry recycling collected since May 2019 being rejected by the new contractor. It is estimated that these factors have added an additional £200k pressure to the budget, however, this should improve as a result of the full rollout of a kerbside sort method of recycling. To offset the pressures above there are savings on vacant posts elsewhere in the service of around £450k. The additional costs of £175k relating to the additional 10% paid to frontline staff will be funded centrally from monies set aside at the end of 2019/20 in the Council Fund in order to meet any potential additional costs relating to the COVID-19 pandemic. The remaining £575k will be funded from the Neighbourhood Services reserve.

- 2.19** The COVID-19 pandemic has created a number of budget pressures including the loss of income from car parking, commercial waste, leisure centres, concessions, environmental enforcement and civil parking enforcement income. Grant funding has been received from WG for the first quarter of the year with further claims to be submitted during the remainder of the year.
- 2.20** Building Services - The Building Maintenance service is currently running at a significant deficit due to the decrease in the level of work being undertaken as a result of the COVID-19 pandemic. The majority of work undertaken by Building Maintenance is within public buildings or Council houses and therefore the level of work has reduced significantly. It is estimated that the trading unit has been losing on average around £20k per week for the first 6 months of the year as the Building Maintenance operatives are unable to recover all of their costs from undertaking work. Around 1,000 chargeable hours were undertaken per week in 2019/20, this has reduced to around 300 hours per week in the first 3 months of 2020/21. This has now increased to around 600 hours a week between July and September but is anticipated to decrease again due to the reintroduction of lockdown measures. The net impact is a current deficit for April to September of £330k on work that would have been undertaken on Housing properties and £210k from public buildings which is a total of £540k. Due to current lockdown measures it is extremely unlikely that the adverse position will be recovered. It is

anticipated this could be at least £750k but depends on the severity of lockdown measures over the coming months. Options for funding this deficit are being assessed including discussions with Welsh Government.

- 2.21** Building Cleaning - It is anticipated that the income for Building Cleaning will not decrease to the same level as Building Maintenance as client budgets will be charged their annual sum agreed as part of the Service Level Agreement even though some buildings may not have been fully operational through the COVID-19 pandemic. There will however be a pressure on the trading account due to the additional 10% paid to the frontline cleaning staff. It is estimated that this will be a value of £65k that cannot be recharged on to clients and will be funded centrally from monies set aside at the end of 2019/20 in the Council Fund in order to meet any potential additional costs relating to the COVID-19 pandemic.
- 2.22** Regulatory Services - The allocation represents the Vale of Glamorgan's budget for its share of the Shared Regulatory Service (SRS). A separate set of accounts is maintained for the SRS and periodically reported to the Shared Regulatory Service Joint Committee. It is anticipated that the SRS will outturn on target.
- 2.23** Council Fund Housing - In response to the WG guidance on managing homelessness during the Covid19 pandemic and the provision of £10 million of additional funding to enable local authorities to secure accommodation needed to ensure that those without a home can be protected, supported and isolated if necessary, the Housing Solutions Team worked hard to secure additional emergency temporary accommodation for the Vale's homeless clients during this period. The team has successfully housed 265 clients by using Ty lolo hostel, bed and breakfast accommodation and council, leased and shared properties in the private rented sector and have secured a total of 86 local hotel rooms in order to satisfy demand. The additional costs of this increased accommodation have been funded by WG and confirmation has been received that this will continue until 31st March 2021. The Community Safety team has also been heavily involved in dealing with an increase in anti-social behaviour during lockdown, mainly due to large gatherings. This means there is now an impetus on ensuring that our CCTV equipment provision is positioned at the most effective sites. The team are currently looking at rolling out the replacement programme using the £350k capital funding set aside last year. Discussions are still on-going regarding the future monitoring of CCTV therefore the 2019/20 revenue savings target of £75k will again not be achieved this year. It is anticipated that unless this saving can be covered by underspends elsewhere within the service, funding will need to be drawn down from reserves to cover this shortfall.

Managing Director and Resources

- 2.24** Resources - As a result of the COVID-19 pandemic the Council has had to invest a considerable sum to upgrade its network infrastructure and security arrangements to enable the move to home working. WG has agreed to pay 50% of such costs from the Hardship grant up to the end of June. Any further

expenditure past this date will have to be 100% funded by the Council. This means that the Council will need to find funding of around £293k to cover the shortfall in the investment it has undertaken to facilitate homeworking from revenue and it is proposed that the ICT Fund will be used to cover this gap. Due to the COVID-19 pandemic there has been a loss of income from the Registrars Service and land charges of around £100k. WG has considered that this income has been delayed rather than lost and therefore has only provided funding for 50% of the claim for Registrars for quarter 1. They have also advised that the situation will be reviewed during February 2021 and therefore it is not clear at this stage of the level of any year end adverse variance.

- 2.25** Regeneration - There was a loss of income during quarter 1 including rent from commercial tenants and potential Countryside parks takings, however, WG is providing funding for this period. A claim for the second quarter losses is due to be submitted to WG shortly. Any potential overspend for this Division will be mitigated where possible by staff cost savings due to delays in the recruitment process during the pandemic.
- 2.26** Development Management - Due in part to COVID-19 disruption in March, along with a large influx of planning applications in the latter part of 2019/20 there was a large carry forward of fees into 2020/21. This position has helped the fact that there was a sharp drop off in fee income received during the first quarter which was £100k lower than the equivalent period last year. It is hoped that as lockdown eases this position will improve. In addition, it is anticipated that the Welsh Government will shortly be announcing a reform of the planning regulations which is expected to result in an increase in planning application fee rates at some point during the year which should also assist in bolstering the fee income position by year-end hence currently a breakeven position is cautiously forecast for the year.
- 2.27** Private Housing - The pandemic has badly affected the Disabled Facility Grants fee income as clients have understandably been anxious about officers and contractors entering their property. Quarter 1 fee income was £5k, against a profiled target of £36k. With the slow easing of lockdown it is anticipated that the situation should improve but it will not be possible to achieve the full year's target by March. This position may improve if the loss of income claim to WG is successful.
- 2.28** Rent Allowances - It is anticipated that based on existing trends the overspend at year end could be around £200k. This is due to the migration of Housing Benefit claims over to universal credit, impacting on the subsidy the Council receives on its overpayments. If required at year end funding will need to be transferred from the Welfare Reform reserve.

General Policy and Council Tax

- 2.29** General Policy - Council Tax collection rates are down 1.1% at the end of September 2020, which in cash terms equates to around £1m, however, this is in part due to some customers deferring payments from April/May this year to February/March next year. The recovery process had been halted however this has now recommenced. Information is being provided to WG on a regular basis regarding this issue.

2020/21 Efficiency Targets

- 2.30** As part of the Final Revenue Budget Proposals for 2020/21, an efficiency target of £247k was set for the Council, which as a result of a positive settlement from WG, was greatly reduced from targets set in recent years. No efficiency target was set for schools. Attached at Appendix 2 is a statement detailing all efficiency targets for 2020/21.
- 2.31** Each efficiency target has been given a RAG status. Green indicates that it is anticipated that the target will be achieved in full within the year, amber indicates that it is considered that the saving in the year will be within 20% of the target and red indicates that the saving to be achieved in year will be less than 80% of the target.
- 2.32** Services are anticipating achieving their efficiency target this year.
- 2.33** Further updates on progress against the efficiency targets will be provided to members during the year.

3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?

- 3.1** The revenue budget has been set in order to support services in the delivery of the Council's Well-being objectives. It is therefore important for expenditure to be monitored to ensure that these objectives are being delivered.
- 3.2** The revenue budget has been set and is monitored to reflect the 5 ways of working.
- 3.3** **Looking to the long term** - The setting of the revenue budget requires planning for the future and takes a strategic approach to ensure services are sustainable and that future need and demand for services is understood.
- 3.4** **Taking an integrated approach** - The revenue budgets include services which work with partners to deliver services e.g. Health via ICF.
- 3.5** **Involving the population in decisions** – As part of the revenue budget setting process there has been engagement with residents, customers and partners.

3.6 Working in a collaborative way – The revenue budgets include services which operate on a collaborative basis e.g. Shared Regulatory Service, Vale Valleys and Cardiff Adoption Service.

3.7 Understanding the root cause of issues and preventing them – Monitoring the revenue budget is a proactive way of understanding the financial position of services in order to tackle issue at the source as soon as they arise.

4. Resources and Legal Considerations

Financial

4.1 As detailed in the body of the report.

Legal (Including Equalities)

4.2 There are no legal implications
