Reasons for decisions

(1) It appears to the Council that the above breach of planning control constituting a waste wood processing operation has occurred within the last 10 years.

(2) The waste management facility, being the waste wood processing operation, fails to protect the amenity of nearby residents, it has not been demonstrated that it can operate without resulting in an unacceptable impact on people and residential amenity and it does not safeguard existing residential amenity. Therefore, the wood processing operation fails to comply with the identified requirements of Policies SP8 - Sustainable Waste Management, MD2 – Design of New Development, MD7 – Environmental Protection and MD20 - Assessment of Waste Management Proposals, as well as the guidance contained within TAN 21 – Waste and paragraph 5.12.1 of Planning Policy Wales Edition 11.
